Morrison	0					<p><b>EXPLANATION and FOOTNOTE:</b>  All facilities with the capability of holding juveniles securely are listed, whether or not they actually held juveniles securely during this reporting period.</p> <p>Status offenders and non-offenders held for any period of time are violations of two core requirements: 1) Deinstitutionalization of Status Offenders and 2) Jail Removal.</p> <p>Therefore, one youth held in violation of DSO and reported under "Status Offenders and Nonoffenders Held" column counts as two violations, which is why the "Total Violations" for each facility may be different than the actual number of youth held in violation of the core requirements.</p>
