Assessing Youth Who Have Sexually Abused: A Primer

By David S. Prescott (2006).

Assessing Youth introduces program and clinical staff to the goals and principles, techniques and instruments, and accomplishments and pitfalls of assessing young people who have sexually abused. While integrating the most current research, David Prescott differentiates clearly between assessments of adults and those of adolescents. This primer provides an overview of many of the instruments currently in use for assessing youth and addresses areas of risk that can serve as treatment goals. It further provides considerations for the developmental needs of youth, brief suggestions for interviewing, and links to new resources. ***Assessing Youth*** is the most user-friendly primer on adolescent assessment available.

Changes in You: A Clearly Illustrated, Simply Worded Explanation of the Changes of Puberty for Girls*

Peggy C. Siegel
Illustrated by Vivien Cohen

Printed for the fourth time in 1997, these books are written in a simple, positive manner. They explain the changes that boys and girls experience during puberty. Topics addressed in each book include physical development, anatomy, masturbation, health, doctor's visits, public and private behaviors and how to deal with unwanted touch. In addition, the boy's book addresses wet dreams and the girl's book addresses menstruation. Parents' guides are also available for sons and daughters with special needs.

Using Conscience as a Guide: Enhancing Sex Offender Treatment in the Moral Domain

By Niki Delson (2003).

Conscience theory brings together five domains of moral development and functioning: attachment; moral-emotional responsiveness; personal value systems; values in action; and conscience. Niki Delson's work addresses a major task in treating patients with sexual behavior and sexual aggression problems by teaching therapists and treatment providers how to work with conscience and conscience development with a 16-week curriculum.
